Authentic flappers of the 1920's were not fringe covered, fishnet clad, showgirls. Real flappers were trendy young women who danced the night away in the most fashion forward clothing of the day. By 1925 hemlines rose to the knee with more and more skin revealed with low necklines and open backs. Everything sparkled from the

beading on a slinky slip dress to the crystal forehead band and the glittering gold heels. Night time was a time to let loose and throw off the cares of the world. Create your own 1920s flapper costume at www.vintagedancer.com/flapper
